

# Key Activities to Membership

## Assessment

EHR & Environment Technical Readiness assessments with associated recommendations.

## Cybersecurity

Health Center Security Risk analysis & assessments. Breach mitigation response & plan development. Implementation of system updates & patches

## Best Practice Webinars

Workgroup/Topic-specific webinars to address Patient communication, SDOH data collection and utilization, Clinical data visualization creation and sharing, Operational improvement with digital health tools

## Data Replication Server Hosting

i2i PRiZiM data extract hosting

## Training & Technical Assistance

One-on-one, group trainings, peer groups & assistance related to EHR utilization, PHC Operations, Data & Analytics, Network & Data Security

## Value based care

Support PHCs and develop relations with MCOs and ACOs to drive value-based care initiatives.

## Analytics

Dashboard development and utilization to enhance performance improvement through Data Visualization, Workflow Optimization, & Predictive analytics, yielding improved clinical quality, cost-efficient care.

## Innovation & EHR Vendor Management

Providing VCHA the ability to support and manage the solutions and vendors supporting each aspect of the three-year HCCN project period.

# CDAQ Best Practices Webinar Series

CDAQ has outlined key thematic areas to provide ongoing Best Practice Webinars to the membership tackling common clinical and operational challenges and best practices.

**Past webinars**  
Recordings/ presentations are available on VCHA's CommUnity Portal.

**Future webinars**  
Zoom/Calendar Link available on VCHA's CommUnity Portal.

Webinar	Date	Webinar Name
1	04/13/23	Health Promotion and IT Webinars
2	05/11/23	Combating Provider Burden through Technology & Innovation
3	05/30/23	Digital Health Tools: Alignment
4	06/08/23	Health Promotion and IT Webinars
5	07/04/23	COVID-19 Webinar Series (Part 1 of 2): New trends and Long COVID
6	07/13/23	Combating Provider Burden through Technology & Innovation
7	07/21/23	Health Promotion and IT Webinars
8	07/25/23	SDOH: Capturing SODH
9	08/03/23	Patient Engagement: Overview
10	08/10/23	Health Promotion and IT Webinars
11	08/29/23	Digital Health Tools: Operationalization
12	09/12/23	Combating Provider Burden through Technology & Innovation
13	09/21/23	Patient Engagement: Engaging Through Social Media
14	10/26/23	COVID-19 Webinar Series (Part 2 of 2): COVID and SDOH training
15	10/31/23	SDOH: Connecting to SDOH Services
16	11/28/23	Digital Health Tools: Optimization
17	12/19/23	Patient Engagement: Patient Population & Engagement Alignment
18	02/27/24	Digital Health Tools: Ongoing Monitoring & Quality Improvement
19	03/26/24	Patient Engagement: Workflow Support Strategies
20	04/11/24	Combating Provider Burden through Technology & Innovation
21	10/12/23	Health Promotion and IT Webinars
22	01/30/24	SDOH: Tackling SDOH Beyond Face-to-Face Encounters

# VCHA i2i Data Warehouse Project

PRiZiM® is a cloud-based, advanced analytics and reporting platform which aggregates disparate data sources into a single "source of truth", giving users flexibility to analyze rich data sets via dashboards, reports, and analytics tools.

CDAQ has invested in this tool to empower Participating Health Centers the data analytics capabilities at the health center while providing the visibility into data at the network level to support clinical quality efforts.

ALEXANDRIA NEIGHBORHOOD HEALTH	BLAND COUNTY MEDICAL CLINIC	BLUE RIDGE MEDICAL CENTER	CENTRAL VIRGINIA HEALTH SERVICES
CLINCH RIVER HEALTH SERVICES	COMMUNITY ACCESS NETWORK	DAILY PLANET HEALTH SERVICES	EASTERN SHORE RURAL HEALTH SYSTEM

# CDAQ Data Interoperability and Integration Initiatives

CDAQ's Data Warehouse project has enabled us to have automated data sharing capabilities. CDAQ has started pertinent initiatives with MCOs, ACOs and State HIEs to share and receive information through the Data Warehouse.

## Aetna VBC

In Dec 2022, CDAQ collaborated with Aetna to establish a Value-based care (VBC) contract. Due to this collaboration, Aetna distributed 7.3 Million Dollars to 22 FQHCs in Virginia.

Collaborating with Aetna Better Health of Virginia to improve clinical quality measures.

## State Health Information Exchange (HIE) - EDCCP

Since Aug 2022, CDAQ has been in conversations with the State HIE - Virginia Department of Health.

CDAQ is leveraging the data warehouse to have a data connection with the FQHCs for data from the Emergency Departments of all health care entities in VA.

## Accountable Care Organizations

In 2023, CDAQ started collaborating with ACOs such as MainStreet and Aledade to drive value-based care initiatives.

These initiatives are focused on improving clinical outcomes in Medicare patients.
